

Candidates Certified by US State/Territory

Presented here are the total number of certificates and the number of currently active certificates issued by the ABIM by US state/territory and discipline as of June 1, 2025. State/territory identification is based on the most recent address provided to the ABIM by the physician. The ABIM has limited contact with some Board Certified physicians. Therefore, the accuracy of many addresses is uncertain. These data are updated annually.

The "Total" column identifies the total number of certificates issued. The "Valid Certificates" column excludes certified internists/subspecialists known to be deceased and/or those whose certificates are no longer valid. Physicians must meet MOC requirements, i.e., pass an assessment, earn points, and provide attestation (if applicable like Interventional Cardiology) in order to retain a valid certificate.

Note that the number of certificates issued is not the number of certified internists/subspecialists practicing in each discipline listed.

*ABIM Board Certified physicians only

Number of Certificates Issued by US State/Territory and Discipline

Note that the number of Valid Certificates is not the number of certified internists/subspecialists practicing in each discipline listed. A valid and unrestricted medical license is required to be certified by ABIM. When a diplomate is no longer licensed, but the license lapsed for non-disciplinary reasons, their status is changed to "inactive" and they are not included in "valid certificates" counts. To remain Certified, a diplomate needs to pass an assessment within 10 years of when they last passed, earn 100 MOC points every 5 years and complete an attestation every 5 years for certificates with a procedural or encounter requirement.
